Almost off to America

2022-04-06 06:33

Another GBT Mistral energy-saving tunnel oven is about to embark on its long journey to a loyal American customer.
Absolute uniformity, a Delta T of 30 degrees, no scorching, exhaust gas temperature of around 210 degrees and last but not least, energy savings of up to 40% compared to conventional ovens. This has also convinced this customer and will have a fast ROI.
